Arkadiusz Kwiecień

Academic degrees : Prof., Ph.D., D.Sc., Eng.

Position : professor

Engineering - technical field

Discipline Civil engineering, geodesy and transportation

Academic qualifications:

Member of the Development Committee of the Faculty of Civil Engineering and Transport at the Cracow University of Technology (since 2008)
Member of the Disciplinary Council for Civil Engineering, Geodesy, and Transport since 2013
Member of the Faculty Committee for Doctoral Degrees since 2013

Membership in professional and academic boards :

Member of the Polish Association of Engineers and Technicians (PZiTB), ICOMOS, ISCARSAH, and RILEM
CEO of the spin-off company PK FlexAndRobust Systems Sp. z o.o.

Academic merits :

He is the author/co-author of over 300 publications in peer-reviewed scientific journals (including over 90 indexed in JCR), over 190 chapters in monographs, 15 granted patents and utility models.

Professional qualifications/language skills

Possibility of writing a doctoral dissertation in Polish and English

Research field :

He conducts interdisciplinary research in the areas of civil engineering, materials engineering, composites, and the strengthening of engineering structures, including those in seismic areas. He is developing his own Polymer Flexible Joints method for applications in engineering structures, including historic buildings. He leads interdisciplinary research teams.

Address

PK Krakow University of Technology,
Faculty of Civil Engineering
Address:
31-155 Krakow
tel. 12 628 23 31
