MODULAR COURSES

in the discipline of Chemical Engineering

No.	Subject	Course type - number of hours
1.	Modern synthesis methods	W-15
2.	Modern spectroscopic methods	W-15
3.	Molecular modeling	W-15
4.	Computational methods in chemical engineering	W-15
5.	Modern polymeric materials	W-15
6.	Alternative technological processes	W-15
7.	Introduction to nanotechnology	W-15
8.	Anthropogenic atmospheric emissions and their environmental effects	W-15

W - Lecture (L)
